If this application is approved, and the approved division is implemented, I understand such approval is only a determination that the land division complies with the applicable requirements of the Land Division Act and Prairie Ronde Township Land Division, Combination, and Boundary Line Adjustment Ordinance, and is not a determination that the resulting parcels comply with other applicable ordinances or regulations pertaining to the use or development of the parcels.

I also understand if an approved land division results in a parcel of less than one acre in size, or any other size, the approval of the land division is not a determination or representation with respect to the potential issuance of a building permit or applicable approvals of a water supply and sewage disposal system for any resulting parcel.

If the application is approved, and the approved division is implemented, I understand it is my responsibility to contact the Prairie Ronde Township Assessor or his/her designee for assignment of an address for each resulting new parcel; and it is also my responsibility to arrange for the appropriate deeds or other intended instruments of conveyance of property for which this application is approved to be executed within 90 days from the date of approval, and filed with the Township and recorded with the Kalamazoo County Clerk/Register of Deeds as required by law within 21 days after such instrument is executed.

Review and approval or disapproval of this application is dependent on the accuracy of the information provided by the applicant. An application approved based on inaccurate or false information shall be null and void. Further, any division created in noncompliance with the Ordinance shall not be recognized on the Township real property assessment and taxation records, or zoning records, and shall be subject to such other consequences as may be provided by law.

  4. The area of each resulting parcel complies with the applicable minimum parcel (lot) area requirements of the Township Zoning Ordinance.

  7. Each resulting parcel is accessible.
  8. The division does not isolate a cemetery so that it is inaccessible.

1.  The application does not meet the following requirement(s) specified above for approval (indicate as applicable from items A.1-10):
  2.  Approval of the application would create or cause a violation of another ordinance or law (unless the application was submitted for approval of a division to create one or more parcels not intended to be buildable and the application is approvable pursuant to Section 7.C of the Land Division, Combination, and Boundary Line Adjustment Ordinance).
- C.  The application was submitted for approval of a division to create one or more parcels not intended to be buildable, and the application is approved pursuant to Section 7.C of the Land Division, Combination, and Boundary Line Adjustment Ordinance; provided the resulting parcels are hereby explicitly designated as “**not buildable**”, and such parcels shall also have this designation in the assessing and zoning records of the Township. **See Addendum.**

**ADDENDUM TO LAND DIVISION APPLICATION FORM FOR APPLICATIONS  
REQUESTING APPROVAL TO CREATE ONE OR MORE PARCELS NOT INTENDED  
TO BE BUILDABLE**

Section 7.C of the Land Division, Combination, and Boundary Line Adjustment Ordinance authorizes the Administrator to approve an application for a proposed land division where the width and/or area and/or depth-to-width of each resulting parcel does not comply with the applicable minimum width/area/depth-to-width requirements, if all of the following requirements, circumstances and conditions are met:

1. The application includes the explicit statement of the applicant that “the requested land division is not intended to create a new separate buildable parcel”.
2. The Administrator determines all of the requirements for land division approval specified in Section 7.A of the Land Division, Combination, and Boundary Line Adjustment Ordinance are met, other than Section 7.A.3 and/or 4 and/or 5.
3. The Administrator determines, after consultation with the Zoning Administrator, that the requested division will not cause any remaining portion of the property associated with the proposed land division which is already developed, or intended for development and previously approved, to violate any provision of the Zoning Ordinance concerning minimum frontage/width, minimum area, minimum building/structure setbacks, or maximum coverage requirements in effect at the time of such application.
4. The Administrator explicitly designates the resulting parcel(s) as “not buildable” in the approval determination on the application, and assures this same designation in the assessing and zoning records of the Township.
5. The approval determination is subject to the condition that before the approval becomes effective the applicant shall file with the Administrator a copy of a document (on a form either prepared or approved by the Township) as recorded with the Kalamazoo County Clerk/Register of Deeds explicitly and conspicuously identifying the parcel(s) as “not buildable” and “not a development site”, and “not subject to a request by the applicant or any successor owner to render the property buildable by variance relief granted by the Prairie Ronde Township Zoning Board of Appeals”.

Note: a parcel designated as “not buildable” pursuant to this provision shall itself be subject to further division to create a parcel(s) intended for building development only to the extent all the following requirements are met:

1. The applicant has retained the right to make such division(s) or is otherwise the lawful transferee of such division rights under the Land Division Act.
2. Any resulting parcel created by such division and intended for development complies with the applicable minimum parcel (lot) width and area requirements of the Zoning Ordinance for a buildable parcel/lot, and can otherwise be lawfully developed under the Zoning Ordinance.
3. The division is otherwise approvable pursuant to this Ordinance and the Land Division Act.
